To whom it may concern,

I am writing to your university because we would like to offer to your students the possibility to make an internship with our company. We would like to welcome your students from your university through the Erasmus+ for traineeships programme.

Coaches Etc is a Coach and Minibus Company specialized in Coach Travel, Group Travel and School Tourism. With our own fleet of coaches, we have become a leader in the field of private coaches in the capital and in the southeast of the country.

We offer a great opportunity for national and international students to start an internship in the coach and travel sector. We are currently offering to enthusiastic and highly motivated individuals the chance to join our teams in one of our multiple London offices.

The placement will last a minimum of 4 months to assure students a profitable ongoing training.
