# APPLIED HEALTH ECONOMETRICS AND HEALTH POLICY - AHEHP

Summer School

July, 22<sup>nd</sup> – 26<sup>th</sup> 2019

Bergamo, Italy

Partnership

Università degli Studi di Bergamo

Crisp – Università degli Studi di Milano Bicocca

- AHEHP is focused on
  - Organization of health care
  - Health econometrics
- Health Care is more and more important
  - 10% of world GDP (World Bank, 2014); 9% Italy; 17% US
  - Forecasts:
    - Increasing expenditure for ageing population
    - High incidence of expenditure on chronic diseases
- Health Econometrics plays an important role in supporting health and social care policy programs.
- The Summer School in AHEHP aims to bring together graduate students and Ph.D. students with no background in Health Economics and Policy to get involved in the main healthcare problems.

# AHEHP - Location

---

- Università degli Studi di Bergamo,
- Department of Management, Information and Production Engineering
- Viale Marconi, 5 Dalmine, Italy
- Room: TBD

## AHEHP – Target group

---

- Graduate students (Master students)
