There is a plenary and division-related program offered, that pays attention to the major societal changes we are experiencing as part of the Sustainable Development Goals. The need to learn from and with each other about digitalisation, diversity, multi-disciplinary challenges, climate issues and many more has only grown stronger.

Let's face them together!

Additionally to this interesting programme we will also make sure that you get to know the beautiful city of Zwolle.

And by the way: April 27th 2023 is King's Day in the Netherlands, so there is one day to explore and enjoy Dutch celebrations.

The International Week is eligible for Erasmus+ Staff and Teaching funding.
