DEGLI STUDI
DI BERGAMO

Info

What

Health data analysis and health econometrics play an important role **in the design of actions to live longer and age better**

CHALLENGES

- ✓ Growing health care expenditure
- ✓ Ageing population
- ✓ Impact of chronic diseases
- ✓ Fast technological change
- ✓ New pandemics

AHEHP focuses on the analysis of **health care markets, health behaviors and policy interventions, through the support of applied econometric methods**

Why

We bring together **students, health care professionals, leading researchers** in health economics and public health from Italian and foreign universities for

- **fast and effective learning**
- unique **social environment** with invaluable **interaction** among participants

About the 2022 edition:

- Participants from 10 **different countries**, 17 **institutions** and 13 **degree programs**
- 13 teachers from 12 **different universities**
- 11 **STATA laboratories** with data applications

Collaborations:

Centre for Economic and Political Research on Ageing, Università della Svizzera italiana

Centre for Health Economics, University of York

UK's National Innovation Centre for Ageing, Newcastle

How

- ✓ **One week of full time lectures, STATA laboratories and group/individual work**
- ✓ Half-day crash course of Introduction to applied econometrics using STATA the week before starting (4 hours).
- ✓ **Applied econometric exercises** assigned **on daily basis** and performed with STATA after classes (2 hours of group/individual work per day).
- ✓ A supervised **group project** to develop during the second week (following courses) and discussed in the final exam (only for attendants taking 6 ECTS).
- ✓ A **certificate of attendance** is provided, conditional upon lectures and lab attendance, and completion of daily handworks. Acknowledgement of **6 ECTS** upon discussion of final project.

Who

- **Introduction do STATA and application: Inequalities in life-expectancy** – Piera bello, University of Bergamo
- **How do we incentivize doctors** using payments? – Rosella Levaggi, University of Brescia
- **Price regulation** in the market **for hospital services** – Gilberto Turati, Catholic University, Rome
- Empirical economics of **risky behaviours** – Vincenzo Carrieri, University of Catanzaro
- **Econometric evaluation of hospital efficiency** – Daniele Spinelli, University of Milano-Bicocca
- Economics of **emergency care** – Irene Mammi, Cà Foscari University of Venice
- **Equity and inequality** in health and health care use – Irene Mammi, Cà Foscari University of Venice
- **Primary care**: are bigger practices better? – Rita Santos, CHE - University of York
- Measuring health outcomes – Paolo Berta, University of Milano-Bicocca
- The effects of **health shocks and personality traits on risk preferences** – Silvana Robone, University of Insubria
- Pharmaceutical **innovation and regulation** before and after the pandemic – Paolo Pertile, University of Verona
- **Gender, ageing and mental health** – Cristina Elisa Orso, University of Insubria
- **Measuring health outcomes** – Paolo Berta, University of Milano-Bicocca
- **Policy evaluation** and methods of **causal inference in health** – Stefano Verzillo, European Commission, JRC
- **Mental health effects** of COVID-19 **among informal carers** – Eugenio Zucchelli University of Madrid

Where

University of Bergamo

Via dei Caniana, 2
24127 Bergamo, Italy

How to reach the campus: [\[click here\]](#)

10 min. walk from the city centre

15 min. walk from the railway station

How much

Graduate students (+3rd year bachelor):
