BIP 2023 - COME – Co-planning Urban Mobilities in Europe **Adaptive and collaborative planning for European urban hubs of mobility**

October-December 2023

Presentation

The BIP COME is a programme organised around a blended format (virtual sessions & physical mobility) including academics from at three member-universities (University of Bergamo, Université Lumière Lyon2 and Dalarna University) to ensure transnational participation.

The programme is shared by 5 Master's courses of the three universities:

- PMTS - *Planning and Management of Tourism Systems and Geourbanistica* at the University of Bergamo
- M2 - *Master en Tourisme* and M2 - *Master Villes et environnements urbains* at the Université Lumière Lyon2
- Master in *Tourism Destination Development* at the Dalarna University

The BIP includes 15 participants who travel to Italy for training and other 10 students from the University of Bergamo, which has applied for organisational support funds for the BIP.

The physical mobility activity of the BIP is 5 days (23-27 October 2023) and professors of the three universities teach together online and in presence.

The BIP awards 6 ECTS credits corresponding to a module in the study plan identified for the recognized credits.

Topics

The programme tries to answer the need of interdisciplinary competences in adaptive and creative planning related to European urban hubs of mobility and flows seen in a polycentric and multiscale perspective.

For this reason, professor of different disciplines of the three Universities face these topics:

- Urbanities/Urbanocene/Polycentric and multiscale approaches to urbanities
- Urban mobility and flows
- Urban challenges related to mobility flows: overtourism, gentrification, intermodal mobility planning, hyperplaces, ...
- Inhabitants' dynamics: residency, tourisms, migrations, commuting, ...
- Processes for sustainable cities' development: co-creative and collaborative governance, adaptive planning, urban regeneration

Teaching methods

The Programme alternates different methods during online and in presence lectures and labs, connecting:

- **Challenge based learning:** challenges identified with local stakeholders
- **Collaborative learning:** adopting student-oriented approaches, instant pools, etc.

- **Project-works:** students' work in interdisciplinary thematic teams
- **Digital Labs:** practical competences about digital mapping, video-making.

PROGRAMME AND CREDITS

Period	Activity	Duration	Description	Credits
September 2023	Students' selection			
1st week of October October 5 12-15	Kick-off online seminar	3 h	<i>introductory meeting by the three Universities</i>	
3rd week of October October 18 15-18	Directed Work	3 h	<i>Group Work With tutors</i>	
October 23-27	Kick-off meeting in Bergamo	5 days 27h	10h seminars + 9h Labs and Group Work + 8h fieldwork	
1st week of November November 8 15-18	Directed Work	3 h	<i>Group Work With tutors</i>	
3rd week of November November 22 15-18	Directed Work	3 h	<i>Group Work With tutors</i>	
1st week of December December 5 15-18	Final Joint online seminar	3 h	<i>Final presentation of Group Works</i>
