CHANCELLOR'S DECREE

Data that can be deduced from the registration in the protocol:
Repertoire Number, Protocol Number, Title,
Class File Attachments and References

Object: Public selection based on qualifications and interview for the awarding of no. 6 Experienced grants for conducting research, within the PRIN 2022 projects (DD MUR n. 104 of 02.02.2022) and the PRIN 2022 PNRR projects (DD MUR n. 1409 of 09/14/2022), financed by the European Union - Next Generation EU, pursuant to art. 22 of law no. 240/2010, at the Departments of the University of Bergamo - PICA code 23AR034

THE CHANCELLOR

GIVEN Law No. 168 of 9 May 1989 laying down rules on the "Establishment of MIUR";

GIVEN Law No. 240 of 30 December 2010 "Norms in terms of organization of universities, of academic personnel and their recruitment, as well as mandate to the Government to subsidize quality and efficiency of academic systems", in particular art. 22 on research grants;

GIVEN the Statute of the University of Bergamo enacted with Chancellor's Decree Index No. 570/2023 of 01.08.2023, in particular art. 16 paragraph 1;

GIVEN the University's current Regulations for awarding grants for conducting research;

GIVEN Ministerial Decree Prot. No. 102 of 09 March 2011, recorded at the Court of Auditors on 13 May 2011, which revalued the minimum gross annual amount of grants for conducting research;

GIVEN Decree-Law No. 192 of 31 December 2014 "Extension of terms provided for by legislative provisions", converted, with amendments, by Law No. 11 of 27 February 2015 and, in particular, Art. 6 paragraph 2 bis which extended by two years the total duration of grants established under Art. 22 of Law No. 240/2010, taking it from four to six years;

GIVEN the D.L. No. 36/2022, converted, with amendments, into Law no. 79/2022, which in art. 14 paragraph 6-quaterdecies establishes that "for one hundred and eighty days following the entry into force of the decree conversion law, limited to the already programmed resources on the mentioned date, or approved by the respective governing structures within the mentioned term of one hundred and eighty days, universities [...] may call for awarding procedures of research grants pursuant to article 22 of law no. 240, in the current text before the entry into force of this decree conversion law";

Referring also to:

- the University's Code of Ethics issued with Chancellor's Decree. Prot. No. 14405/I/003 of 19.7.2011 and amended with Chancellor's Decree. Rep. No. 262/2018, Prot. No. 60030/I/003 of 12.4.2018;
- the University's Regulations on research integrity and ethics, enacted with Chancellor's Decree Index No. 387/2016 of 18 July 2016;
- the University's Patent Regulations enacted with Chancellor's Decree Index No. 390/2016 of 19 July 2016 and amended with Chancellor's Decree Index No. 158/2018 of 26 February 2018 and with Chancellor's Decree Index No 421/2020, of 9.9.2020;

ACQUIRED the resolutions of the Councils of the Structures involved referred to in Annex A which approved the annual research projects and resolved on the requirements for candidates' admission to the selection;

GIVEN the resolutions of the Academic Senate and of the Board of Directors reported in Annex A which approved the research grants activation in various Departments;

GIVEN	the art. 34 of Regulation (EU) 2021/241 which provides for the need to guarantee adequate visibility of the results of the investments and the European Union financing for the support offered and which requires that the recipients of the Union financing disclose the origin of the same and ensure their visibility.
HAVING SEEN	operational instructions issued by the MUR to facilitate compliance with the aforementioned provisions, i.e., "Guidelines for information and communication actions by the Implementing Bodies";
ASCERTAINED	the financial backing reported in annex A;

DECREES

Article 1

Call for public selection

6 public selections are launched based on qualifications and interview for the awarding of No. 6 grants for conducting research pursuant to Art. 22 of L. No. 240/2010 with a contract under private law as specified in Annex A to this notice which constitutes an integral part thereof.

Each grant is paid to the contract holder in monthly instalments of equal amount.

The research projects are described in Annex A of this call constituting an integral part hereof.

Article 2

Requirements for admission to the selection

The selection procedure is open to **scholars in possession of a professional scientific curriculum suitable for conducting the scientific research provided for by this call, as well as of the following requirements:**

- **3rd cycle degree: PhD (see the following Annex A).**
- **knowledge of one or more foreign languages (see the following Annex A).**

The qualifications obtained abroad must be recognised as valid in the Italian territory.

As regards qualifications obtained abroad that have not already been recognised in Italy with formal procedure pursuant to the applicable laws, the Commission is competent to assess the equivalence – as to the nature, level and subject correspondence (CUN Area for PhD qualifications) – to the qualifications required by this call, for the sole purposes of admission to the present selection.

As regards qualifications obtained abroad, required by the call for the purpose of admission to this selection, the applicant:

- in the event of qualifications already recognised as valid in the Italian territory, must indicate in the application **the details of the provision attesting the occurred recognition** pursuant to the applicable laws;
- in the event of **qualifications not yet recognised**, must proceed with these indications:

Apply to the University of Bergamo for the equalization of the training course and the release of the final parchment through the instructions published at the following link:

<https://www.unibg.it/ricerca/lavorare-ricerca/dottorati-ricerca/isciversi-dottorato>

The University of Bergamo can recognize a PhD degree just in case of relevance to the ones already activated at the University of Bergamo. For the other PhD degrees offered by Italian Universities, refer to the link: <https://www.universitaly.it/index.php/public/cercaOffPL>.

After obtaining the equivalence, the candidate must request the "Certificate of Comparability" from the CIMEA (Academic Equivalence Mobility Information Center), by registering on the Center's website via the link that will be provided by the undersigned Administration.

In order to ensure the widest participation in the selection, the candidate with a qualification not yet recognised or with the recognition procedure in progress, **must obligatorily attach to the application, under penalty of exclusion, one or more of the following documents:**

- **a certified copy of the statement of qualification equivalence**, issued by the competent Italian diplomatic and consular authorities abroad;
- **the diploma supplement or transcript of record**, legalized and written in Italian or in English;

- **a copy of the qualification** with a translation into Italian or English.

In the event of qualifications not yet recognized, the candidate is admitted with reserve.

If the candidate turns out to be the winner, he must start the equivalence procedure above indicated, within the terms peremptorily established by the Administration following the approval degree, in order to sign the contract.

Moreover, the applicant is also required:

- **to be at least 18 years old;**
- **to be in possession of civil and political rights;**
- **to have no criminal convictions or ongoing criminal proceedings that would prevent, in accordance with the regulations in force, the establishment of an employment relationship.**

The selective procedure does not allow admittance to:

- those who have a degree of kinship or affinity, up to and including the fourth degree, with a professor from the relevant structure, or with the Chancellor, the General Manager or a member of the University's Board of Directors;
- those who have been holders, including any renewals, of research grants awarded pursuant to Art. 22 of Law No. 240/2010 for a period which, added to the duration of the contract provided for by this call, exceeds a total of six years, except for the period in which the grant was used in coincidence with the PhD within the maximum legal duration of the relevant course;
- those who were contracted as research fellow or fixed-term researcher as per ss. 22 and 24 of Law 240/2010 at the University of Bergamo or other Italian public, private or online Athenaeums, as well as any other Body indicated in para 1 of s. 22 of Law 240/2010 for a length of time which, if summed to the duration of the contract in this announcement, exceeds 12 years in total, albeit not consecutive; periods of time spent on maternity or sick leaves do not count to the purpose of the duration of the aforementioned relationships, in accordance with current Laws;

The applicant enrolled in a Diploma di Laurea (DL), Diploma di Laurea Specialistica (LS), Laurea Magistrale (LM), PhD with study grant or medical specialisation in Italy or abroad can participate in the selection object hereof; should the applicant be the winner, the research grant will be awarded subject to withdrawal from studies or PhD study grant.

Pursuant to art. 22 paragraph 2 of Law 240/2010 cannot be recipient of the grants the regular personnel at universities, institutions and public entities of research and experimentation, the Italian National Agency for new technologies, energy and sustainable economic development (ENEA) and the Italian Space Agency (ASI) and institutions whose scientific specialization diploma was recognised equivalent to a PhD pursuant to the fourth paragraph under article 74 of Presidential Decree of 11 July 1980, No. 382.

The holder of the grant can attend PhD courses whose subjects are related to the research activities connected with the grant, upon prior evaluation of the Structure of reference. However, the research grant is incompatible with the enjoyment of the PhD study grant.

These requirements must be met on the date of expiry of the deadline for submitting the application for the admission to this selection.

This Administration guarantees equality and equal opportunities between men and women as to access to employment and treatment at work.

Article 3 Exclusion from the procedure

The following reasons are causes of exclusion:

- lack of signature on the application form;
- lack of admission requirements as provided for by Art. 2;
- failure to meet the procedures for submitting the application as mentioned under the following Art. 4.

The applicant is admitted if selected; should additional investigations be necessary, the applicant must regularize his/her application within the time peremptorily established.

The Administration may decide to exclude the applicant from the selection launched with this call, at any time, by reasoned Chancellor's Decree.

Article 4

Terms and conditions for submitting application

Under penalty of exclusion applications for participation in the competition, along with the relevant qualifications held and the relevant scientific publications, shall be submitted online through the following online application procedure:

<https://pica.cineca.it/unibg/>

The candidate will be able to register and access the platform using the Public Digital Identity System (SPID - security level 2). In case the candidate does not have one, he or she can request it according to the procedure indicated on the website www.spid.gov.it. Alternatively, the candidate can register and log in using the credentials released directly by the PICA platform.

It is of utmost importance to provide a valid email address in order to enable the registration process on the electronic procedure.

Applicants shall upload all personal and professional data as requested by the application procedure; all documents must be uploaded in PDF format (.pdf). Each applicant can produce a maximum of no. 40 publications and a maximum of no. 40 other titles and qualifications.

Failure to comply with the online application procedure will result in exclusion of the applicant.

Prior to final submission, and within the given deadline for applications submission, the online application procedure allows to modify and save the inserted information in a draft copy.

Confirmation of final submission date will be certified by an automatic notification email.

Submissions after the given deadlines will not be accepted by the system, as the online application procedure won't be accessible.

Each application will be given a registration number. For all further communications, the registration number shall be quoted along with the code of the research grant competition.

The online application and the submission procedure must be completed by and no later **than 12.00 (Italian time) on the thirtieth day** from the notice publication date on the University website. Should the indicated deadline fall on a non-business day, it shall be postponed no later than 12.00 (Italian time) of the next business day.

The submission of the online application must be completed and finalized:

- **no digital signature:** in this case the candidate has to download the pdf file of the application by the system; the PDF file shall not be modified in any way, it is to be printed, signed in original, scanned in a pdf file and uploaded again on the website;
- **sign the application on the server using ConFirma service:** in order to sign digitally the application, it is necessary to have a hardware (e.g., smart card or USB with digital signature certificate issued by an approved certification body) compatible with ConFirma service; after signing, applicants can download the signed pdf application;
- **sign the application digitally on your PC:** In order to sign digitally the application, it is necessary to have a hardware (e.g., smart card or USB with digital signature certificate issued by an approved certification body) and a software for digital signatures in order to create a pdf.p7m file from the pdf file downloaded from this site. The pdf.p7m file must be uploaded in the website again;
- **in case of submission of the application through SPID,** it will not be necessary to sign the application form as it is automatically acquired by the procedure.

The application must contain all the required data by the system and must be signed and accompanied by a valid identification document of the candidate, under penalty of exclusion.

For any technical problems, contact support through the link available in the footer <https://pica.cineca.it/unibg>.

Article 5

Admission application

The applicant, filling the application, must declare, under his/her own responsibility, pursuant to what provided for by Presidential Decree 445/2000 and following amendments and integrations, as follows:

- his/her citizenship;
- to possess the qualifications mentioned in Annex A, indicating the CUN Area of PhD, the date on which it was obtained, the Institute that issued it and the final vote/assessment achieved; the applicant with qualification(s) obtained abroad must declare to have obtained the relevant

recognition indicating in the application the details of the provision or must annex the required documentation according to what specified hereby;

- to possess any other requirements as mentioned in Annex A;
- to possess other qualifications useful for the assessment;
- to know the foreign language required by this call;
- in case of Italian citizenship: to be enrolled in the electoral lists, specifying the Municipality of belonging and possibly specifying the reasons for non-inclusion or cancellation from the same lists; in case of foreign citizenship: to possess civil and political rights in the Country of belonging or provenance, or the reasons for non-possession of the same;
- not to be excluded from the active political electorate;
- to have no criminal convictions, or declare possible convictions undergone, indicating the details of related sentences, and any pending criminal proceedings;
- to be/not to be a state employee, specifying to be/not to be a regular employee at universities and other bodies as mentioned in Art. 22 of L. No. 240/2010;
- to have no degree of kinship or affinity, up to and including the fourth degree, with a professor from the relevant structure or with the Chancellor, the General Manager or a member of the University's Board of Directors;
- if enrolled in a Diploma di Laurea (DL), Diploma di Laurea Specialistica (LS), Laurea Magistrale (LM), PhD with study grant or medical specialisation, in Italy or abroad, to be aware that, in the event
- of awarding of the grant, attendance at such courses and the use of the PhD study grant are incompatible with the holding of the contract;
- to hold research grants awarded pursuant to Art. 22 of Law No. 240/2010;
- to hold contracts as fixed-term researcher pursuant to Art. 24 of Law No. 240/2010;
- to have attended a PhD indicating the period, University, date on which the qualification was obtained, cycle, exact title of the course and CUN Area;
- period of enjoyment of any PhD study grant;
- address to which communications concerning this competition are to be sent; it is mandatory to indicate a personal e-mail address as well;
- possible request to conduct the interview via videoconference indicating the phone number and motivation.

In the application for participating in the competition, the applicant, pursuant to Law No. 104 of 5 February 1992, must specify any aid necessary in relation to his/her needs as well as any need for additional time for the interview.

When submitting the application for participating in the selection, the applicant must annex the following documents:

1. a photocopy of the applicant's identity document in course of validity;
2. *curriculum vitae* in European format, dated and signed;
3. a list, signed by the applicant, of the publications and other research products, and other titles considered appropriate for the purposes of the selection such as specialisation degrees, certificates of attendance to postgraduate courses, obtained in Italy or abroad, contracts, study grant or research assignments both in Italy and abroad (cf. Annex B);
4. any publications, other research products or other titles that the candidate wishes to assert to the purpose of the procedure, numbered in progressive order matching the relating numbered list;
5. in the event of foreign applicant, it is necessary to annex: a copy of the residence permit (if the applicant is already in its possession).

For the abroad qualification, required for the purposes of selection admission, it's also necessary:

- in the event of qualifications already recognised as valid in the Italian territory, to indicate in the application **the details of the provision attesting the occurred recognition** pursuant to the applicable laws;
- in the event of qualifications not yet recognised attach to the application **one or more of the following documents**: a certified copy of the statement of qualification equivalence, issued by the competent Italian diplomatic and consular authorities abroad; the diploma supplement or

transcript of record, legalized and written in Italian or in English; a copy of the qualification with a translation into Italian or English.

As regards all other qualifications obtained abroad which the applicant intends to provide for the selection as required by the call, it is necessary to annex to the application a copy of the qualifications. Each annex must be in PDF format and must not be larger than 30 MB.

Pursuant to Law No. 183/2011, the Administration cannot accept or request certificates, but only declarations in lieu of certifications or affidavits submitted in substitution of the actual certificates signed by the applicant and submitted together with an unauthenticated photocopy of the applicant's valid identify document. The Administration has the right to carry out suitable controls on the truthfulness of the contents of the declarations in lieu pursuant to what provided for by Presidential Decree No. 445/2000.

The requirements and the qualifications must be owned on the date of the expiry of the call.

It is mandatory to indicate a personal e-mail address to which the communications concerning this selection will be sent. Any variation of said address must be promptly communicated to the Selections Office and Legal Management (Servizio Personale TA e collaborazioni).

Article 6 Examining Commission

The Examining Commission is appointed with Chancellor's decree, upon proposal of the Structure's Council, at the expiry of the deadline for submitting the application.

The Commission is authorized to carry out the on-line procedure, in the understanding that such method can be adopted until the conclusion of the relevant works, guaranteeing the security and traceability of communications.

Article 7 Selection

During its first meeting, the Examining Commission will establish the assessment criteria and procedures explicitly, according to what provided for by the call, fixing a minimum score for admission to the interview.

The overall assessment is expressed in hundredths, as indicated hereafter:

- up to a maximum of 60 points for qualifications and scientific-professional curriculum; to that end, the following will be object of assessment:
 - graduation vote;
 - PhD (if not already provided for as requirement for admission);
 - specialisation degrees and certificates of attendance to postgraduate courses, obtained in Italy or abroad;
 - publications and other research products;
 - documented research activities – as long as the beginning date and duration of the activities are duly certified – carried out at the premises of public and private subjects with contracts, study grants or assignments, both in Italy and abroad;
- up to 40 points for the interview.

Within the context of its autonomy, the Commission can integrate the above, depending on the research project and on what provided for by this call.

The Commission will evaluate, in particular, what is indicated in Annex A

The applicants will be informed before the interview on the results of the assessment of the qualifications.

The Commission reserves the right to carry out the interview via videoconference, through the use of IT and digital tools, guaranteeing the adoption of technical solutions that ensure the publicity of the same, the identification of the participants, as well as the security of communications. and their traceability. Failed connection at the time established or late connection, unless due to force majeure, will be considered as a renunciation to participate in the selection.

During the interview, the Commission will verify the applicant's ability to cover the topics and themes related to the research project and his/her knowledge of at least one foreign language, according to what provided for by the call.

The interview program is indicated in Annex A

The assessment of the knowledge of the foreign language (or foreign languages) as provided for by this call will be carried out during the selection according to the modalities established by the Commission. The Commission reserves the right to verify the knowledge of the Italian language for foreign candidates; in this case, Italian language knowledge will be ascertained under ineligibility penalty and will not compete for the final score, unless otherwise established by the Commission.

The date and place of the interview will be communicated with at least a 20-day notice through a communication published on the website of University of Bergamo <http://www.unibg.it>, under the section "Concorsi e selezioni-Assegni. Borse e contratti di ricerca-Assegni di ricerca" supervised by the Servizio Assegni di ricerca.

This notice is to all intents and purposes an official communication. Any changes related to the date of the interview will be communicated to the admitted applicants with at least a 20-day notice through the publication of a communication on the University's website under the section "Concorsi e selezioni-Assegni. Borse e contratti di ricerca-Assegni di ricerca".

Failure to show up at the interview will be considered as a renunciation to participate in the competition for all practical purposes.

At the end of the works, the Commission draws up the list of the applicants examined, indicating the votes obtained during the interview.

The Commission will draft the merit list in descending order according to the overall final score, which is obtained by adding the score of the qualifications and the score of the interview.

Applicants will be inserted in the merit list if they obtain at least 30 out of the 40 points available for the interview.

In the event of equal score, the PhD or equivalent qualification obtained abroad will constitute a preferential qualification, if not required for admission; in the event of equal merit, the younger applicant will be preferred.

The merit list is approved, under the condition precedent of verifying the requirements provided for by the call, with Chancellor's Decree and published on the website under the section "Concorsi e selezioni-Assegni. Borse e contratti di ricerca-Assegni di ricerca". The term for submitting any appeals will run from the date of publication.

Should the winning applicant renounce to or withdrawal from the contract, the grant can be awarded to successful applicants according to the order of the merit list, upon prior resolution of the Research Structure.

Article 8

Signing of the contract and withdrawal

The winning applicant, in possession of the mentioned requirements, will sign an autonomous work contract under private law with effect, normally, on the first day of the month following the month in which the acts are approved.

As regards foreign applicants needing a residence permit, the date of beginning of the contract will be postponed and subject to the completion of the issuing procedure of said permit.

In the case of conditional admission for the achievement of an abroad qualification not recognized as valid in Italy, the winner, before signing the contract, must produce the required documentation the terms peremptorily established

The winner of the selection, convoked by the Administrative Office to sign the contract, will lose the right to the grant for collaboration in research activities if he/she does not state to accept the contract or does not begin the activity within the established term, without prejudice to health reasons or causes of force majeure duly and promptly documented.

Each grant as mentioned under Art. 1 can be renewed, under the terms and conditions provided for by the above-mentioned Regulations; in any case, the relationship established pursuant to Art. 22 of Law No. 240/2010, including the possible renewal, cannot last more than six years, including the possible renewal, with the exclusion of the period in which the grant was used in coincidence with the PhD within the maximum limit of the legal duration of the relevant course.

Article 9

Rights and obligations of the grant holder

The employment relationship is governed by an individual contract, according to what provided for by the applicable laws and by the University's Regulations.

The research activity is flexible, it has a continuous nature, not merely occasional, and is carried out under the leadership of the Scientific Director, with autonomous conditions as to the research programme and its realisation, without any predetermined working hours.

The grant holder must refer to the Research structure that requested the activation of the contract.

The research activity of the grant holder is carried out within the context of the relevant Structure and in other Structures of the University on the basis of the research programme. Any research activities conducted outside of the University must be approved by the Council of the Research structure.

A period of permanence abroad is allowed at one or more qualified universities or research institutes, upon prior authorisation of the Council of the Research structure. During the period spent abroad, the amount of the grant will be increased by fifty percent to be charged to the Structure of reference or to the funds assigned to the Research structure.

The grant holder can participate in all the activities programmed by the Research structure for the promotion of researches and the dissemination of relevant results; he/she can be a member of the profit exams commissions, in quality of expert.

The Research structure must provide the grant holder all necessary support for realising his/her research programme, guaranteeing access to the equipment, the necessary resources and the use of the technical-administrative services.

The grant holder must comply with what provided for by the University's applicable Regulations on research integrity and ethics.

The winner of the selection who is entitled to the grant, at the time of the signature of the individual contract, should be committed, under penalty of forfeiture of the right to the research grant, to confidentiality and preventive transfer to the University of all intellectual property rights relating to the results produced and/or achieved during the research activities carried out at the University and she/he has the right to be recognized as the author of the his/her results achieved and/or products. The University recognizes the application of the same economic conditions that the University Patent Regulation grants to its Professors/Researchers.

The research fellow may participate in activities performed on behalf of third parties pursuant to art. 66 of Presidential Decree 382/80, in the context of issues related to its project, and the distribution of related proceeds, in accordance with the current University Regulations on the subject.

Article 10

Taxes, welfare, insurance and mission

With reference to taxes, the grants are subject to what provided for under Art. 4 of Law No. 476/1984, while as regards welfare, they are subject to what provided for under Art. 2, paragraph 26 and following, of Law No. 335/1995, and following amendments. With reference to mandatory maternity leave, they are subject to what provided for by the Decree of the Ministry of Labour and Welfare of 12 July 2007, published in the Official Gazette No. 247 of 23 October 2007, and, as regards sickness leave, they are subject to what provided for by Art. 1, paragraph 788, of Law No. 296 of 27 December 2006, and following amendments.

In the period of mandatory maternity leave, the bonus paid by INPS pursuant to Art. 5 of the mentioned Decree of 12 July 2007 is integrated by the University up to the payment of the total amount of the research grant.

The University will cover the grant holder's accident insurance and civil liability toward third parties' insurance within the scope of his/her research activity.

The covering of the grant holder's mission expenses is financed through the funds of the Scientific Director in charge or the Research structure, according to the modalities provided for by the University's regulations as to missions.

Article 11

Processing of personal data

In accordance with articles 13 and 14 of Regulation (EU) 2016/679 (GDPR), on the protection of personal data, and with D. Lgs. n. 196/2003 and subsequent amendments, it is made known that data is controlled and managed by the legal representative of the University of Bergamo, via Salvecchio 19, - 24129 Bergamo.

Data will be collected exclusively for the present bid purposes and will be kept only for the necessary time to complete the relevant procedures. The data treatment controller will be appointed within the

managing unit in charge of bidding procedure, who will carry out the treatment with all due respect of propriety, legitimacy, scope, transparency and confidentiality of the treatment; and data will be used exclusively for purposes connected to the selection and further conferment of the role and possible contract drafting, as well as management of the following employment position, in compliance with current regulations. Data will be kept for the necessary time to accomplish the selection purposes, subject to the application of norms on document retention, and will be transferred uniquely to public administration bodies directly concerned with the juridical and economic position of the selected applicant, treated in compliance with current regulations and used for personal, welfare, insurance and fiscal position management.

The data, not subject to profiling, will be processed by the appointed personnel through the acquisition of documents in paper and electronic form and through archiving procedures, including computerized ones, which will guarantee their confidentiality; the data processing will be carried out with related organization and processing logics and high security standards will be adopted. Candidates who have provided their data will be able to access them and exercise the rights provided for by the art. 16 to 22 from the EU GDPR 2016/679. Any safeguard request can be addressed to the University Data Protection Officer, who can be contacted through the university website (Privacy and Personal Data Protection section), at e-mail dpo@unibg.it. In addition to the right of complaint which can be presented to the Italian Data Protection Authority, Piazza Venezia 11, 00187 Roma.

By presenting their application, candidates thereby authorise and fully consent to publication on the University institutional website of all information concerning the current bid, their own data and the contents of their CV in accordance with 111-bis of D. Lgs.196/2003 stating that, within the scope limits defined by art. 6, par. 1, letter b), of the Regulation, consent is not due for personal data present in a submitted CV.

Article 12

Person in charge of the procedure

The Person in charge of the selection procedure within this call is Dr. Domenico Panetta, manager of Area risorse umane, Viale Papa Giovanni XXIII, 106 - 24121 Bergamo, phone (+39) 035 2052 669 - 594 - 878, e-mail address: assegni.ricerca@unibg.it.

Article 13

Publication

This call is published in the University's Official Registry, on the website of the Conference of the Italian University Chancellors (www.cru.it), on the website of the Ministry of Education, Research and University (MIUR) at the link <http://bandi.miur.it>, and on the website of the European Union at the link <http://ec.europa.eu/euraxess> in the form of a notice.

The full competition and related annexed forms are available on the website of the University of Bergamo www.unibg.it under the specially devoted section "Concorsi e selezioni-Assegni. Borse e contratti di ricerca-Assegni di ricerca".

The call is also published on "Piattaforma Integrata Concorsi Atenei" (PICA) - link <http://pica.cineca.it/unibg/> from which it is possible to fill the application online for participation at the selection.

Article 14

Final provisions

For all matters not provided for by this call, the following will be applied: Law No. 240/2010 and following amendments and integrations, the University's Regulations on the awarding of research grants, the University's Regulations in force, and the Regulations on employment relationships in the public administration.

PRIN 2022 PNRR M4C2 finanziato dall'Unione europea - Next Generation EU (DD MUR n. 1409 del 14/09/2022)

PISA_V_22_RN_PRIN_01 - CUP: F53D23011370001

Duration of the grant: 24 months

Scientific Area: 11 - History, philosophy, pedagogy and psychology

Competition sector: 11/C4 - Aesthetics and Philosophy of Languages

Scientific disciplinary sector: M-FIL/05 - Philosophy and Theory of Languages

Scientific Director: Prof.ssa Valentina Pisanty

Entry requirement:

Dottorato di ricerca in Area CUN 10 - Scienze dell'antichità, filologico-letterarie e storico-artistiche oppure in Area CUN 11 - Scienze storiche, filosofiche, pedagogiche, psicologiche.

Knowledge of the language: English

Additional qualifications evaluated by the Commission:

Previous experience in the analysis of documents, (verbal and/or visual) cultural artefacts, narratives, public discourse and conspiracy theories will be positively valued.

Interview schedule:

The interview will focus on the following key-points:

1. the candidate presents his or her previous research work and publications and current projects;
2. the candidate presents the procedures and methods he or she intends to follow in the realization of the research programme;
3. the committee asks questions on aspects of the research planned for the two-year grant period.

Description of the research project:

This two-year research grant is aimed at developing the project (coordinated by Simon Levis Sullam, Università Ca' Foscari) of a hitherto unwritten history of antisemitism in Italy, from the country's unification until the present day. Its object is the rhetoric of anti-Jewish discourse, whose main components - religious, racist, economic, etc. - will be identified through the historic and semiotic analysis of a vast array of communicative (institutional, journalistic, literary, etc.) artefacts. It focuses on conspiracy theories, a frequent construct in modern antisemitic ideology, and will concentrate on those historical moments in which Jews have been represented as a menace for the political, moral and social order in terms of national allegiance, religious and moral behaviour, alleged economic role, "racial" difference, real or imagined political role. The Bergamo unit will work mostly on the period between 1946 and the present day and on the main theoretical (semiotic and narratological) questions.

As well as devising an analytical method that will be used to compare various expressions of anti-Jewish hostility (expressions whose retrieval will require considerable bibliographical and possibly archival research), the Bergamo unit will also contribute to the disentanglement of the two phenomena of antisemitism and anti-Zionism, often intertwined (and sometimes instrumentally so) in public discourse. Other phenomena of religious prejudice and hostility, such as islamophobia, may also be the object of comparison with anti-Jewish hatred. Their different histories, but also the possible similarities between the discourses and practices that underlie them, will be analysed and clarified through the investigation of contemporary media and social media.

RESEARCH PROJECT - CODE 2

"ETHICS (ElecTRonic Health In ContextS). The alliance and cooperation between telemedicine and home therapies towards personalized socio-technical treatments"

Research structure: Department of Letters, Philosophy, Communication
Department Resolution: 17.10.2023

Resolution of the Academic Senate: 23.10.2023
Resolution of the Board of Directors: 25.10.2023

Gross annual amount: € 25.000,00;

Financial coverage:

PRIN 2022 PNRR M4C2 finanziato dall'Unione europea - Next Generation EU (DD MUR n. 1409 del 14/09/2022)

PRIN PNRR 2022: SENA_B_22_RN_PRIN_01 - CUP: F53D23011060001

Duration of the grant: 24 months

Scientific Area: 14 - Political and social sciences

Competition sector: 14/C1 - General Sociology

Scientific disciplinary sector: SPS/07 - General Sociology

Scientific Director: Prof.ssa Barbara Sena

Entry requirement:

Dottorato di ricerca in Area CUN 6 - Scienze mediche oppure in Area CUN 11 - Scienze storiche, filosofiche, pedagogiche, psicologiche oppure in Area CUN 14 - Scienze politiche e sociali.

Knowledge of the language: English

Additional qualifications evaluated by the Commission:

//

Interview schedule:

The interview will focus on the topic of the research project; the candidate's research experiences and his/her methodological skills.

Knowledge of the English language will also be tested during the interview.

The Commission reserves the right to verify knowledge of the Italian language for foreign candidates.

Description of the research project:

The proposal aims to explore the possibilities of a socio-technical and patient-centered interpretation of telemedicine, within a systemic approach to health. The proposal is in line with the interventions envisaged by the National Recovery and Resilience Plan (or PNRR) which, in coherence with the reform of territorial care, aims at reducing territorial inequalities and improving the integration between regional health services and national platforms through innovative solutions. The development of telemedicine is one of the strategic interventions envisaged to 'make the home the first place of care'. Further, beside contributing to the cluster "Health" of Horizon Europe, the proposal concerns many key activities featured in the 2021-27 Italian NRP (National Research Plan - PNR in Italian), because they require a higher understanding and development of telemedicine.

Currently, a technical and biomedical approach still prevails in telemedicine practices.

This approach frames technologies as mere (and neutral) tools to support care and holds a reductionist view of illness as biological accidents or biochemical imbalances.

However, for some time now, complementary approaches have been developed. They consider health and illness as a property of the social system rather than individual conditions, pointing to the role of the

communities of practice (Lave & Wenger 1991) of doctors, patients, their families, nurses, administrators, volunteers, paramedical and psychological support associations (Mol 2002).

All these interrelated social worlds contribute to individual patients' health, illness, and recovery.

In this perspective, the performance and effectiveness of e-health technologies depend on their embeddedness in enabling contexts.

Drawing on a socio-technical and patient personalized approach, commonly adopted in Science and Technology Studies (STS) and Sociology of Health and Medicine (SHM), the proposal aims to study some innovative cases of implementation of remote therapies related to two diseases: oncological and COVID-19.

The study will apply a mixed-and-multi-methods approach, using three different methodologies:

- a web survey (on attitudes and practices towards telemedicine) addressed to the whole population of the Italian General Practitioners - GPs
- case studies
- a Delphi group, with experts in public health and telemedicine.

Besides the academic communities, the proposal aims at stimulating the creation/aggregation of clinical and healthcare-centred communities, dealing with single morbidities. One of the outcomes of the proposal stands as a community of practice, sharing experiences of successful e-health practices.

Entry requirement:

Dottorato di ricerca in Area CUN 14 - Scienze politiche e sociali.

Knowledge of the language:

English (for those who are native speakers of Italian and/or languages other than English), Italian (for those who are native speakers of languages other than Italian).

Additional qualifications evaluated by the Commission:

Skills in quantitative/qualitative research, with publications in the Sociological Theory on emotions field in national and international journals with an empirical approach involving data collection and analysis/interpretations.

Interview schedule:

The interview will focus on the knowledge of the research topics. The Selection Committee will assess a candidate's knowledge and skills with regard to Sociology of Emotions in the Italian context.

Description of the research project:

The research is focused on the complex relationship among resentment and social justice. The contemporary western societies can be basically interpreted as resentment societies. Populistic waves slap forcefully the bases of democratic life with the result that the social ties seem to be progressively weakened. Nevertheless, resentment can't be unilaterally conceived as a disruptive and disintegrating emotion. As research in the field of emotions has shown, social sentiments are ambivalent phenomena full of many different potentials. What we would point out is that, in the experience of resentment, beside hatred and desire for revenge, one could also find a quest for change, justice, and social improvement. One of the most important question emerging from the scientific literature on resentment is how and when resentment as a pathological destructive social force (hostile resentment) can prove to be a constructive social force and promoter of social development and social justice (prosocial resentment). The question is which factors can free resentment from his vindictive obsessions and can turn it to more inclusive and developmental forms of request. At the theoretical level, the research wants to deepen the notion of resentment trying to point out its constitutive elements and mechanisms of formation. Our idea is that resentment is both collective

and individual phenomena triggered by tension between egalitarian desires, which are fiercely competitive, and growing structural inequalities.

Coming to the empirical part of the research, it will try to enrich our theoretical analysis through a qualitative and comparative methodologies. Our methodological choices are oriented to study resentment from a biographical perspective. To capture the different phenomenology of resentment and its causes, we are going to gather life histories from inhabitants of our three regions of competence (Lombardy, Veneto, and Calabria). To investigate empirically how resentment could be interpreted as a generative condition of collective actions and identities, we have planned to add to the biographical perspective, the one set up by case study and action research.

Scientific Director: Prof. Roberto Lusardi

Entry requirement:

Dottorato di ricerca in Area CUN 14 – Scienze politiche e sociali oppure in Area CUN 11 - Scienze storiche, filosofiche, pedagogiche, psicologiche.

Knowledge of the language: English

Additional qualifications evaluated by the Commission:

//

Interview schedule:

The interview will verify the candidate's knowledge about the sociology of health and medicine, the narrative approach on the study of organizations, and the main theoretical categories developed by the Science and Technology Studies (STS) applied to medicine. In particular, the ability of the candidate to combine the interpretation of socio-technical situated practices with the broader organization of socio-health systems and with the prevailing epistemological paradigms will be assessed. In-depth knowledge of qualitative methods of social research and, in particular of the ethnographic method, will also be verified.

Description of the research project:

The project aims to investigate some epochal changes and systemic contradictions currently affecting contemporary medicine, the extent of which is still to be explored. The COVID-19 pandemic, in addition to its dramatic global health and socioeconomic consequences, has also posed a challenge to the epistemological and methodological assumptions of Evidence-Based Medicine (EBM), with significant organizational, professional, and clinical implications. The spread of a new pathogen for which no validated prior knowledge existed forced scientists, experts, and healthcare professionals to metaphorically confront the new pathology "barehanded," as they could not rely on a well-established and accredited repertoire of biomedical data and clinical protocols, as is the logic of EBM (Campo, De Toffoli, Gobo 2022; Cavicchi 200; Greenhalgh et al. 2022). In a scenario dominated by extensive debates and tensions between scientific communities and policy-making agencies, practices of reconfiguring diagnostic and therapeutic processes, both within and outside hospital institutions, have emerged, which

PIANO NAZIONALE
DI RIPRESA E RESILIENZA

UNIVERSITÀ
DEGLI STUDI
DI BERGAMO

continue to redefine professional relationships and medical-scientific practices (Greenhalgh, Engebretsen 2022).

To investigate these changes, the project operates at the intersection of three disciplinary fields: Science and Technology Studies (STS), the sociology of medicine, and organizational studies. The interplay of these perspectives will uncover the key macro, meso, and micro social aspects involved in what is happening in the biomedical research sector, healthcare organizations, and the daily professional practice of medical personnel.

In particular, the project investigates the practices of knowledge production and dissemination within practice and epistemic communities, the performative dimension of professional expertise, and organizational and professional implications. Specifically, at the macro level, the goal is to explore the internal tensions within medicine regarding EBM and the epistemological and institutional implications resulting from the spread of alternative expertise outside the dominant epistemic community. At the meso level, the aim is to analyze the processes that have facilitated or hindered the change and innovation of diagnostic-therapeutic processes and how the relationships between different professional knowledge domains (specialized and territorial medicine) have been redefined. At the micro level, the objective is to study the change in clinical practices, with particular attention to the production and circulation of knowledge within informally emerged communities of practice. To investigate these dynamics, qualitative data collection and analysis techniques will be employed, including systematic literature reviews, collection and analysis of documentary materials, and semi-structured interviews (with healthcare personnel, institutional actors, and key informants).

The expected scientific outcomes to which the research fellow will be called to contribute include publications in prestigious national and international scientific journals, the organization of a national conference, participation in international conferences, and the organization of workshops with healthcare professionals for the transfer of study results. The research fellow will have the opportunity to join an established research group that has been working on the topic for some time and contribute with their theoretical expertise and methodological skills to achieve the project's objectives.

Entry requirement:

Dottorato di ricerca in Area CUN 12 - Scienze giuridiche.

Knowledge of the language: English

Additional qualifications evaluated by the Commission:

Other assessable qualifications: PhD relating to the subject of Private Law

Interview schedule:

The interview will assess the candidate's knowledge related to the topics of the research project, the candidate's competence in Private law and his/her attitude to the research. The interview will be held in Italian and English.

Description of the research project:

The research project focuses on the complex legal profiles that the use of artificial intelligence in medicine poses to law practitioners; in particular, the two main aspects on which the research intends to focus concern the interference of the application of AI systems with the principle of self-determination and with the delicate issue of informed consent.

The complexity - and sometimes the inexplicability - of the use of algorithms and mathematical methods may cause the patient not to run the risk of undergoing medical treatments involving the use of AI and, so, to give up the benefits that this technology could bring to his health.

On the other hand, the use of artificial intelligence implies the processing of health data in ways that could conflict with (or lead to partial waiver) the principle of self-determination in the field of personal data protection.

The research aims to assess how the boundaries of the principle of self-determination in the medical field should be traced in a way that prevents this principle from affecting the development and application of new technological tools and digital solutions in the field of health.

The analysis will be carried out in three directions: theoretical, in a national and supranational perspective, in particular European, to assess the current regulatory framework and its compatibility with the issues mentioned above; technique, based on knowledge of relevant AI applications in the

Additional qualifications evaluated by the Commission:

//

Interview schedule:

The exam will focus on verifying the candidate's preparedness for the topics of the research project with particular reference to:

- Knowledge of the main classical and contemporary sociological theories and their application to research;
- Knowledge and mastery of the main methodologies of qualitative and quantitative social research;
- Knowledge of at least one foreign language among those of the European Union;
- Candidate's motivation and engagement with research topics.

Description of the research project:

The aim of the research is the issue of the transformation of material and symbolic boundaries of social solidarity, broadly understood as social ties and the formation of a unitary subject in the context of the crisis generated by Covid-19. By means of a longitudinal analysis of the Italian context, covering the time span from the beginning of the pandemic (ca. December 2019) until the planned termination of the research, the object is to understand whether and how a potentially traumatic event, Covid-19, has generated forms of inclusive solidarity. In other words, comprehension of the pandemic resulting in the generating of a common judgment of fairness, reciprocity and justice. The originality of the research consists in analysing the potential transformation of Covid-19-related events, widely considered disruptive to social solidarity at national and European level, into resources for strengthening national and European identity and inclusive solidarity. The impact of Covid-19-related events on social solidarity are analysed by reconstructing the genealogy of the social representations related to the pandemic on the basis of a precise analytical sequence involving three Lines of Inquiry [LI]: LI1) the analysis of the trauma-carrier groups - i.e. the collective subjects: local spontaneous committees, informal

DI RIPRESA E RESILIENZA

UNIVERSITÀ
DEGLI STUDI
DI BERGAMO

neighbourhood groups, third sector associations, activists and human rights movements, professional organisations, trade union, trade and industry representatives - which have suffered the most from the negative consequences of Covid-19 and have made claims for government compensation; LI2) the analysis of how the representations of suffering and the claims of these groups have been discussed and re-elaborated in the public media sphere by political-institutional, information and intellectual-academic actors, starting from the beginning of the pandemic until 2024 (first year of the research); and, finally, LI3) the analysis of whether and how national public opinion has been influenced by such debate. Several scenarios are hypothesised. Covid-19: 1. has generated the maturing of a feeling of inclusive solidarity at national level or alternatively, has sharpened the internal fractures of national identity according to traditional (territorial, class, generational) and/or new lines of division; 2. has produced forms of nationalist/populist, territorial (North/South Europe) closure or even forms of scepticism and disinterest on the part of Italians towards everything that happens beyond their national borders; or, again, 3. has led to the maturing of an inclusive transnational solidarity, that is a greater adhesion of Italians to the European project. It goes without saying that Research as a whole has a major impact on the advancement of scientific knowledge and the policy implications of its findings.

The researcher recruited under this project will participate in the research and overall activities of the initiative. He/she will, in addition, be dedicated to the specific activities of the UNIBG team with particular reference to:

- Critical review of the scientific literature of reference for the research;
- Definition, construction, collection and analysis of the empirical data subject of the primary survey (structured questionnaires, in-depth interviews, participant observation sessions as dictated by the Research Team);
- Participation in the design, implementation and initiation of dissemination initiatives (eg. Digital Memory Archive);
- Publication of articles and scientific papers in relevant publishing bodies;
- Participation in project meetings, both locally and nationally.

The activities will take place under the constant supervision of the project's scientific officer.
