The distance is calculated based on the hours of travel on public transport from the municipality of residence to the municipality where the courses are held using the application on the Lombardy Region website at the following address:

[‘Muoversi in Lombardia’](#)

calculating the travel time with an expected start time of 7:00 a.m. and, for students at the Bergamo campus, including an additional 15 min to reach the campus from Bergamo Station.

- Students who sat exams as part of programmes for international mobility in the previous academic year, for which the university had still not made the conversion by 10 August 2024, must state the conventional date of 10 August 2024, must self-certify the 'conversion' mentioned above with the Diritto allo studio Service before the definitive rankings are published. They will find the operational indications in the instructions that will be published later.
- The university may exercise its right to consider as valid the results of final **INTERNSHIP** tests carried out on the basis of university teaching after 10 August 2024, provided the result of these tests is **obtained by 31 October 2024**.
- For students with handicaps, pursuant to Article 3, c. 1, of Italian Law no. 104 of 5 February 1992, or with invalidity equal to or greater than 66%, individualized merit requirements may be defined depending on the type of handicap. The merit requirements will be established by the Committee for Learning Disabilities and Special Needs based on the opinion of the instructor assigned to the integration, relying on the indications in Article 14, clause 6 of Italian Prime Ministerial Decree of 9 April 2001.

Only following the definitive assignment may the related **certifications** be issued pursuant to Article 15 of Italian Law 183/2011. **Certifications will be issued after seven days following the date the receipt of the request form is confirmed.**

BONUS CREDITS

Students who enrol in year two or later of three-year bachelor's and five-year master's courses may use, in addition to the effectively earned CFU, **a credit bonus** to cover any differences between the minimum number of required CFU and those effectively earned. The sum of the bonus differs depending on the year of enrolment in which the student decides to use it. In particular:

- **5 CFU**, if used for the first time to obtain benefits for the second year (second part of the first year for students enrolled part time);
- **12 CFU**, if used for the first time to obtain benefits for the third year;
- **15 CFU**, if used for the first time to obtain benefits for year four or later.

Accrual, activation, and means of using the bonus

- **The bonus may be activated only once and cannot be accrued:** If the bonus is used, it may not be increased and only the residual may be used in later years;
- The bonus accrues only during the three-year bachelor's and five-year master's degrees (up to the third year);
- For students enrolled in the first years of three-year bachelor's or five-year master's courses, the bonus may be used to maintain the first instalment and for the balance of the scholarship (confirmation of merit);
- Any unused bonus increased by 15 CFU or the residual amount of the activated bonus not used in the three-year bachelor's degree may be used by students registered in graduate courses **starting in year two of enrolment** (second part of the first year for students enrolled part time);
- In the online application, students from other Italian universities must declare that they have never used the bonus, or indicate the amount of bonus used in previous academic years. The self-certification methods will be reported in the instructions for completing the application.

2.2.4. PhD Courses

| COURSE | RIGHT TO PARTICIPATE |
|--|---------------------------|
| PhD courses (excluding recipients (<i>benef</i>) of scholarships pursuant to Italian Ministerial Decree 30.04.99, no. 224 and research grants pursuant to Italian Law 27/12/1997, no. 449) | Be admitted to the course |

2.3. REASONS FOR EXCLUSION

In the 2024/2025 academic year, students must not hold a degree of a level equal to or higher than the course of studies for which the accommodation is being requested that year.

Also excluded from the rankings for accommodation are students who, in the 2024/2025 academic year:

- are renewing their enrolment after halting their studies;
- change departments or undergraduate courses, repeating enrolment in a year already attended;
- change university campuses, repeating enrolment in a year already attended;
- received more than one sanction in the period of hospitality pertaining to the 2023/2024 academic year;
- have not confirmed the application to participate in this announcement; further information will be reported in the application instructions.

Should the student have to repeat a year of study, **even following renewal of the enrolment after halting the studies**, the number of CFU necessary to access the rankings for the Accommodation Service will be calculated in reference to the CFU envisaged for each year completed, starting from the year of **first enrolment in a course of the same level of studies**, including the academic years for which the student must repeat a year of enrolment.

3. ECONOMIC REQUIREMENTS TO REQUEST THE SCHOLARSHIP

Students who, in addition to meeting the merit and distance requirements, also hold the economic requirements as specified below, have the right to request the scholarship and join the rankings of the Accommodation Service with **priority** over applicants with a higher income.

The following are required to benefit from the scholarship and priority in assigning the accommodation:

1. a University Equivalent Economic Status Index (**ISEEU**) **not higher than € 26,306.25**;
2. an Equivalent Property Status Index (**ISPE**) given by the property status divided by the equivalence scale **not higher than € 57,187.53**. The ISPE will be calculated by the university based on data provided by INPS (Italian social security service).

Proof of the economic situation established above for the purposes of this announcement must be provided by presenting an ISEE or 'ISEEU parificato' signed **by 9 September in the 2024 calendar year** (deadline for submitting the application for participation in this announcement). This certification will determine the position in the ranking. **Any certificates presented subsequently will only be useful for recalculating the monthly fee.**

Before submitting a request for ISEE certification, please see the relative [Guide prepared by the Tax Office](#).

Students whose family unit has a gross income for the purposes of the ISEEU lower than €9,000.00 may be asked to show additional documentation regarding their means of support.

Family unit

The family unit is defined according to Italian Prime Ministerial Decree no. 159/2013 **with reference to the date the application is submitted**.

Independent student

If the student is a family unit in itself, the student may be considered independent only if the two conditions below are met, as provided for in current legislation (Italian Prime Ministerial Decree no. 159 of 5 December 2013 – Article 8, clause 2):

- residence outside the housing unit of the immediate family for at least two years before the date the application is submitted, in housing not owned by a member of the immediate family;

- at least two years of legally declared income from occupation as an employee or the like, for no less than **€9,000.00**.

If **both** of the above-mentioned conditions are not met – and duly documented – the property and economic situation of the immediate family will be considered.

Students enrolled in PhD courses

Pursuant to Article 8, clause 4 of Italian Prime Ministerial Decree 159/2013, students enrolled in PhD courses may present an ISEE as an independent student, even if the above-mentioned requirements are not met. The student's family unit consists exclusively of the applicant, spouse, children under the age of 18, and adult children, according to the rules of the ordinary composition of the family unit.

An exception is nevertheless made for the possibility for the applicant to constitute a family unit according to the ordinary rules (including other people present in the family status).

Political refugees

Students who have been recognized with political refugee status only need an ISEE certificate relating to any income/property in Italy, but must send a copy of the political refugee status by means of a ticket to the Diritto allo studio Service.

3.1. STUDENTS WITH INCOME EARNED IN ITALY

The economic situation is determined on the basis of the University Equivalent Economic Status Index (ISEEU) referred to in Italian Prime Ministerial Decree no. 159/2013 and later amendments. The ISEE certificate is issued to the applicant directly by INPS. Students may request it independently through the INPS office or through a tax assistance centre authorized by INPS.

The request must refer to '**Prestazioni agevolate per il diritto allo studio Universitario**' (*Assisted services for the right to university study*). For students enrolled in PhD courses, the statement *ISEE for PHD courses* is also acceptable.

ISEEs that present OMISSIONS/DIFFERENCES or that are not applicable to the subsidized services for the right to university study will not be accepted for the purposes of granting the benefits until they are finalized, strictly by the date of entry. In the event of a change in the ISEE/ISPE values, the score and the relative position in the ranking will be automatically recalculated.

The data contained in the ISEE certificate will be acquired by the university directly from INPS. To facilitate this operation, **the student must submit the request using the means indicated above, by the date this competition announcement expires.**

Current ISEE

Pursuant to Article 9 of Italian Prime Ministerial Decree 159/2013, a current ISEE may be requested when a valid ordinary ISEE is already held but a change occurs in the employment status or there is an interruption in social security, assistance, and benefits occurs that does not fall within the total income (declared for tax purposes) for one or more members of the family unit; or when there is a decrease in the overall income capacity of the family greater than 25%.

Students who intend to present a current ISEE certificate must submit it personally by means of a ticket sent to the Diritto allo Studio Service.

3.2. STUDENTS WITH INCOME EARNED ABROAD

Based on Italian Presidential Decree no. 394 of 31 August 1999, the economic and property situation of the family unit for foreign students or Italian students residing abroad, or Italian residents with a family unit and income produced abroad must be certified with the appropriate documentation issued by the relevant authorities in the country where the income is produced and **must be translated into Italian by the Italian diplomatic authorities in that territory.**

For income and property earned or held abroad in countries outside the eurozone, the valuation will be made based on the average exchange rate in 2023.

In countries where it is particularly difficult to obtain certification confirmed by the local Italian embassy, the certificate may be issued by the relevant diplomatic representative or foreign consulate in Italy and legalized by the Prefecture pursuant to Article 33 of Presidential Decree no. 445 of 28 December 2000.

For foreign students from the following **'Particularly poor and developing countries'**, as defined in Ministry for Universities and Research Decree no. 440 of 13 February 2024:

Afghanistan, Angola, Bangladesh, Benin, Burkina Faso, Burundi, Cambodia, Central African Republic, Chad, Comoros, Democratic People's Republic of Korea, Democratic Republic of the Congo, Djibouti, Eritrea, Ethiopia, Gambia, Guinea, Guinea-Bissau, Haiti, Kiribati, Lao People's Democratic Republic, Lesotho, Liberia, Madagascar, Malawi, Mali, Mauritania, Mozambique, Myanmar, Nepal, Niger, Rwanda, Sao Tome & Principe, Senegal, Sierra Leone, Solomon Islands, Somalia, South Sudan, Sudan, Syrian Arab Republic, Tanzania, Timor-Leste, Togo, Tuvalu, Uganda, Yemen, Zambia.

The economic situation is assessed based on a certificate from the Italian delegation in the country of origin stating that the student does not belong to a family with a notoriously high income and elevated social level. This certificate may also be issued by the foreign university of enrolment supported by agreements or conventions with this university or on behalf of Italian entities qualified to provide a guarantee of economic coverage pursuant to current regulations in matters of enrolling foreign students in Italian universities. In the latter case, the certifying body must commit to return the scholarship on behalf of the student if it is revoked.

The student must nevertheless declare any income and property held in Italy by the family unit on the basis of Italian Legislative Decree no. 109 of 31 March 1999 as amended by Italian Legislative Decree no. 130 of 3 May 2000.

To assess the family economic/property situation and issue the **'ISEEU parificato'** certificate, all students with income earned abroad must submit the following original documentation translated by the Italian consulate in the country of origin to the **MCL CAF - tax assistance centre on Via Jacopo Palma Il Vecchio, 85 - Bergamo by the deadline of this announcement:**

- updated certificate of the current composition of the foreign family unit;
- income of each family member for calendar year 2023; the document must clearly state that the incomes refer to calendar year 2023. If one or more members of the family unit 18 years of age or older did not earn income in 2023, the student must present a declaration to that effect;
- buildings owned by the family as of 31 December 2023 for use as housing with an indication of the floor area; the document must be issued by the relevant authorities. If no such buildings were owned in 2022, a certificate attesting to the absence of buildings owned by each family member 18 years of age or older must be produced;
- a certificate of the property owned by members of the family unit as of 31 December 2023 (**current accounts**, stocks, dividends, shareholdings, fractions of net property of any companies owned, etc.);

and also:

- any documentation relating to income and property (e.g. current accounts) produced in Italy;
- any declaration relating to the amounts of scholarships received in calendar year 2023;
- matriculation number, only for students enrolled in the University of Bergamo;
- tax ID (students who still do not have it must send it to the tax assistance centre as soon as they have it).

IMPORTANT

To obtain the 'ISEEU PARIFICATO', students with income earned abroad must contact the

MCL CAF tax assistance centre on Jacopo Palma Il Vecchio, 85 - Bergamo

using **one** of the following means:

- sending an e-mail to unibg.mclbg@gmail.com attaching all the needed documents

OR

- by requesting an appointment by calling **+39 035225453**

When making the request, please specify whether you also intend to apply for the Accommodation Service in order to receive the ISEEU by the deadline to submit the online application.

4. RANKING PROCEDURES

Six rankings will be produced: three (first-year EU students – first-year extra-EU students – later years) for students assigned to the halls of residence in Bergamo (Via Garibaldi, Via Caboto, and Seminario Vescovile) and three (first-year EU students – first-year extra-EU students – later years) for students assigned to the hall of residence on Via Verdi in Dalmine.

The rankings are produced following the **general criteria** specified below:

- for each ranking, priority is given to students with handicaps recognized pursuant to Article 3, clause 1 of Italian Law no. 104 of 5 February 1992, or with an invalidity equal to or greater than 66%;
- students who were **already hosted in the previous academic year** will then be ranked if they meet the merit requirements. Confirmation of the place will also be applied to those enrolled in the first year of a graduate course:
- following this, students who meet the economic requirements following the income or merit scores specified below will be ranked;
- **students meeting the merit requirements whose economic and property situation exceeds the limits in this announcement** will be ranked following the students who meet both the merit and economic requirements.

4.1. STUDENTS ENROLLED IN THE FIRST YEAR OF ALL COURSES OF STUDY

The ranking score is calculated on the basis of the Equivalent Economic Status Index (ISEE) for the family unit, compared to the limit of **€ 26,306.25**, for a maximum of 1000 points assigned using the following formula:

$$\left\{ 1 - \frac{\text{Student ISEE}}{\mathbf{€\ 26,306.25}} \right\} \times 1000$$

The ranking is determined by the general ranking criteria of the assigned score, listed in decreasing order. For equal scores, students enrolled in higher-level courses prevail. In the event of further parity, the mark for the degree prevails, followed by the youngest age.

4.2. STUDENTS ENROLLED IN YEAR TWO OR LATER OF ALL COURSES OF STUDY

The ranking is determined by the general ranking criteria of the assigned score, listed in decreasing order. The total score is calculated based on the sum of the score relating to the number of CFU earned by **10 August 2024** and the score determined by the average mark on the exams. A total of 1000 possible points are distributed thus: 600 based on the number of earned CFU and 400 based on the average score of exams passed.

For equal merit scores, students who have not used the bonus rank higher, followed by students with higher income scores. For further parity, students enrolled in a later year of the course, followed by younger students.

Note: If a student pre-enrolled in a graduate course does not graduate from the three-year bachelor's degree but enrolls in the first year outside the prescribed time, the student will be inserted in the rankings as being enrolled in the first year outside the prescribed time.

Means of calculating the merit score

- The score relating to the **CFU** earned by 10 August 2024 is calculated using the following formula, which considers an expected average of 60 CFU for each year in the course (30 CFU for those enrolled part time):
Student CFU= credits achieved by the student by 10 August 2024 considered for scholarship purposes;
Minimum CFU= credits required by the competition notice for the academic year for which the scholarship is being requested;
Maximum CFU= maximum number of credits that the student can have achieved, obtained by adding 60 CFU for each complete year of course (30 for part-time students);

Full time (e.g. referring to the 2nd year):

$$\frac{(\text{student CFU} - \text{minimum CFU}) \times 600}{(\text{maximum CFU} - \text{minimum CFU})}$$

Part time (e.g. referring to the second enrolment in the first year):

$$\left\{ \frac{(\text{student CFU} - \text{minimum CFU}) \times 300}{(30 - \text{minimum CFU})} \right\} \times 2$$

If the bonus is used, the score relating to CFU is equal to zero.

- The score related to the **average** mark on the exams is calculated using the following formula:

$$\frac{(\text{average student mark} - 18) \times 400}{(30 - 18)}$$

This is a prerequisite for reimbursement of the deposit referred to in the point above, which will be retained if damage to the facilities or furniture is found, save possible charges for greater costs in relation to the damage.
- Students winning the competition, **except for PhD students**, must occupy the place by **31 October 2024**, residing there continuously; otherwise they will lose their right to accommodation.
