

Dear Erasmus+ Office / Careers and Employability Team,

We are pleased to invite your students to apply for our Account Management Internship Programme, based in Stirling, Scotland, with placements beginning in January 2027.

We are seeking to partner with European universities to offer motivated students an opportunity to gain meaningful international work experience through Erasmus+ mobility. Our internships are available for durations of 8 weeks to 6 months, allowing flexibility for a range of academic and placement requirements.

Interns will join our Account Management team and gain hands-on experience supporting client relationships, coordinating day-to-day account activity, contributing to live projects, and developing professional communication and organisational skills. Students will work alongside experienced colleagues in a supportive, collaborative environment.

We would be grateful if you could share this opportunity with eligible students who may be interested in completing an Erasmus+ traineeship in the UK. We welcome applications from students who are proactive, professional, confident communicators, and eager to develop in an international workplace.

To apply, students should submit a CV and short cover letter, including their preferred internship duration and any Erasmus+ placement requirements, to pamela.speirs@globalvoices.co.uk. I am also happy to again offer our opportunities on your platforms if required.

We would be very happy to provide further information, discuss placement arrangements, or support any documentation required by your institution. We are awaiting further information on when this will again commence for the UK and the complete requirements.

Thank you for considering this opportunity. We look forward to connecting with your students and welcoming future interns to Stirling.

Kind regards,

Pamela Speirs
Head of HR & Recruitment
