International Week 2026

Innovation and Internationalisation

16–20 November 2026 | Nuremberg, Germany

Dear partners and colleagues,

We are delighted to invite you to the International Week 2026 at Technische Hochschule Nürnberg Georg Simon Ohm in the vibrant city of Nuremberg. Under the theme *Innovation and Internationalisation*, the week will bring together colleagues, students and partner institutions from around the world to exchange ideas, explore new opportunities for cooperation and strengthen our international network.

Connect with students

International Student Fair and guest lectures

Build collaborations

COIL, teaching formats and research matchmaking

Experience Nuremberg

Campus, city programme, and partner exchange

What to expect

The programme offers an open and inspiring setting to connect across teaching, research, and practice. Participants may present their institution, contribute guest lectures, meet colleagues from different faculties, and discuss ideas for student mobility, collaborative teaching, COIL projects, applied research and future cooperation formats.

International Student Fair Meet OHM students and promote exchange opportunities.	Guest Lectures Share your academic expertise and spark new conversations.
COIL & Teaching Workshop Explore joint teaching formats and international classroom projects.	Research Matchmaking Identify shared interests and initiate future collaboration.
Company Excursion Connect international academic exchange with applied practice.	Campus & City Programme Discover OHM and Nuremberg with colleagues from our network.
Partner Presentations Introduce your university, programmes, and cooperation interests.	Individual Meetings Arrange focused discussions based on your interests.

Note: The main program is planned for 16–19 November 2026. Friday, 20 November, is reserved for individual arrangements based on research interests.

Location	Technische Hochschule Nürnberg Georg Simon Ohm, Keßlerplatz 12, 90489 Nuremberg, Germany
Accommodation	A room contingent at special rates will be available within walking distance. Further details will follow.
Financial Support	ERASMUS+ mobility may be available for participants from EU partner institutions. Additional support options for non-EU partners or exceptional circumstances may be discussed individually.
Registration	Please respond by 31 August 2026, indicating the number of participants, name, affiliation and position, interest in guest lectures, interest in the International Student Fair, and specific cooperation interests.
Contact	Prof. Dr.-Ing. Till Biedermann, Faculty Coordinator / Vice-Dean International Affairs till.biedermann@th-nuernberg.de

We look forward to welcoming you to Nuremberg for an inspiring international week of exchange, collaboration, and innovative ideas.
