Christopher Napier is Professor of Accounting in the School of Management at Royal Holloway University of London (RHUL). Christopher has conducted a wide range of research exploring themes related to accounting history, theory of financial reporting, specific accounting issues (retirement benefits and intangibles), accounting and law, corporate governance, and Islamic accounting. He is the author or co-author of a large number of research papers published in pinnacle journals, as well as books and contributions to edited volumes.

**Participation is free.**

**Workshop Organizer:**

Stefania Servalli (University of Bergamo)
